Wave hammer is a real-time waveshaper that can be used to shape the incoming audio signal or to create completely new sounds. Wave Hammer features comprehensive controls used by producers worldwide, including three filter types with dozens of morphing filters, two LFOs, dual envelopes with modwheel support and multiple envelope curves for maximum flexibility. A unique feature of Wave Hammer is its ability to morph between different filter types. Wave Hammer is available in plugin format for Mac and Windows and is compatible with most major DAWs such as Logic, Pro Tools, Cubase, Cakewalk Sonar and Live.
